

About the Proximus Group

Proximus Group is a telecommunication & ICT company operating in the Belgian and international markets, providing services to residential, enterprise and public customers.

We are the leading provider of telephony, internet, television and network-based ICT services in Belgium through our Proximus and Scarlet brands. We are active in Luxembourg through our affiliates Telindus Luxembourg for ICT and Tango for telecom. In the Netherlands we offer ICT services through Telindus Netherlands. BICS is our affiliate responsible for our international carrier services. Our complementary brands meet the demands of a wide range of customers. More info: www.proximus.com/group

Our ambition

Become a Digital Service Provider, delivering a superior customer experience

We will make our organization fitter, focusing on **efficiency** and **simplification efforts** to further structurally reduce our costs and hence finance our ambitious investment program. We will grow our core business offering convergent solutions and a large variety of entertainment to our customers. We will build the future by bringing **Fiber** to our customers using the digital platforms and applications for better service and developing meaningful innovations such as **Smart Mobility**, **Smart Retail**, **IoT** and **Security** in partnership with start-ups. This will enable us to deliver sustainable, profitable growth and a stable shareholder return.
